

Professional Development Webinar Series

The webinar portal has served the Southern region and beyond for several years by providing over 450 free webinars available for on-demand viewing on subjects including forestry, natural resources, conservation, bioenergy and climate science. SREF's partnership with the US Forest Service, SGSF, the Natural Resources Conservation Service (NRCS) and other stakeholder groups has helped these webinar portals to become reliable resources for professionals seeking continuing education credits as well as for the public sector, private individuals and students interested in learning more about the latest topics, practices and issues.
