PINEMAP

Professional Development Series

Are you a forester or resource manager interested in learning more about climate science and the crucial role it plays in our woodlands?

This webinar will be the second installment of a monthly schedule of practical content developed for professional foresters.

Climate Science and the South: An overview

Part 1: Trends in Climate in the Southeast and their impacts on trees and foresters

Pam Knox,

Extension Climatologist

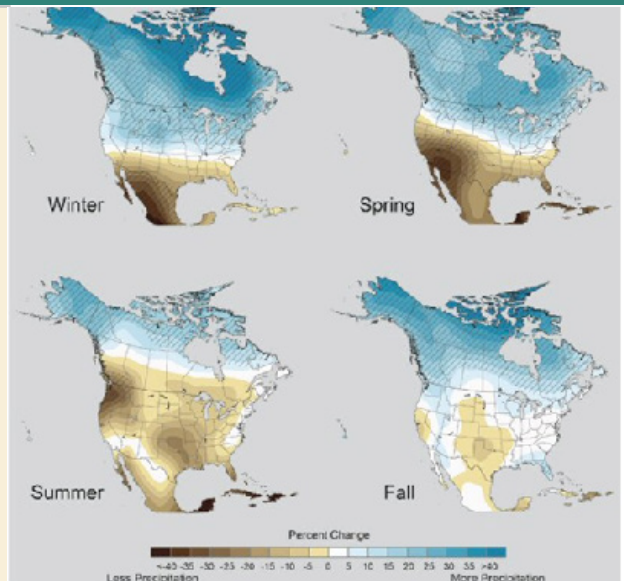

College of Agriculture and Environmental Sciences,
University of Georgia

Part II: What People are Saying about Global Warming and Climate Change?

Heather Dinon Aldridge

Applied Climatologist

State Climate Office of North Carolina
North Carolina State University

**November 21,
4:00 PM EST**
